EXAMINER'S AMENDMENT

1. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jonathan Harris (Reg. #44,144) on April 3, 2006.

2. The application has been amended as follows:

Please **cancel** claims **18, 21, and 22**.

REASONS FOR ALLOWANCE

3. The following is an Examiner's statement of reasons for allowance:

The prior art of record does not expressly disclose or fairly suggest the combination of the use of a switch serving to toggle connectivity between a server management device within a rack mount computer server and a remote console depending upon the connected state of the remote console. The switch functions to provide connectivity between the server management device and the remote console through the front port when the remote console is connected through the front located port, and provides connectivity between the server management device and the remote console through the rear located port when the remote console is coupled via the front located port. The claims are interpreted in light of the supported sections of the instant specification, inter alia, in Paragraph [0028], and in view of Applicant discussion in the latest communication (received 10/27/2005), inter alia, in Pages 2-4.

Art Unit: 2144

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
